# Introducing

# ROOTBOOT RAZOR (Australian Patent No. 2014212999)

*a DISC Seeding System like no other!*

**Rootboot products are liquid ready!**  
*No extra cost for liquid set-up*

Independent movement  
between disc arm and boot arm

Deeper penetration of the disc  
without affecting seed placement

No hair-pinning

Correct separation of seed and  
fertiliser

Under seed tilth

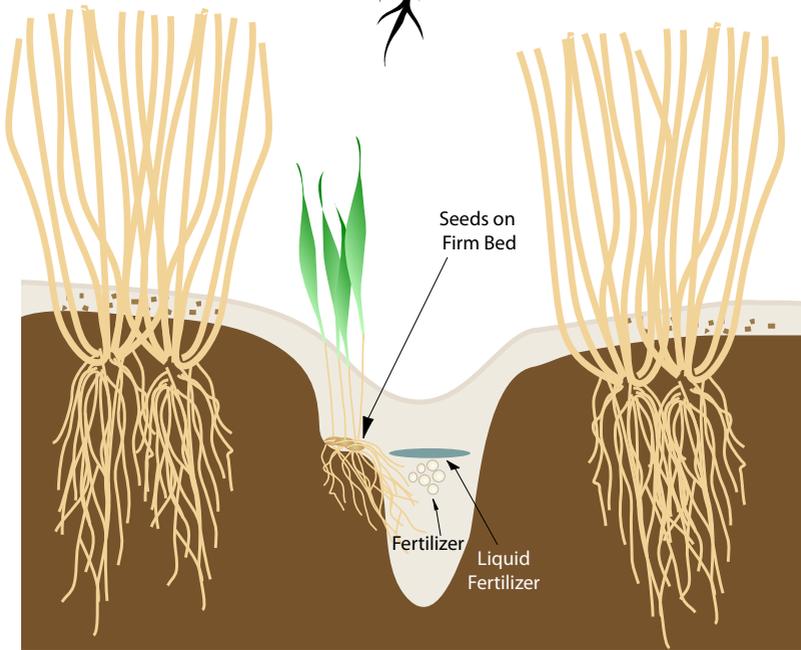

**\$2 250 ea +GST**

*"The Rootboot Razor has allowed us to retain the benefits of a traditional disc seeder with the added advantages of seed fert separation and chem safety/incorporation. Germination has been really good especially in canola"*

**– Patrick Neal, Ngapala SA**

**ROOTBOOT: Precision FARM MACHINERY for the Progressive FARMER**

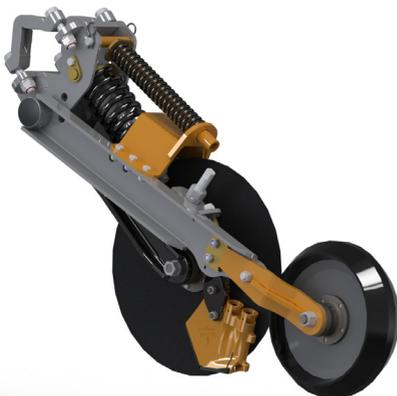

# rootboot®

## WHY USE ROOTBOOT RAZOR?

Retain your residue without hair-pinning and blockages.

Keep your stones in the ground, conserve moisture and increase yield.

## FEATURES:

Sealed non-serviceable hubs will outlast a tapered bearing

Sealed pivot point bearings

Tungsten wear protection on boot

Easy positive adjustments
